This game is all right and is pretty fun but going into this i recommend you prepare to get angry and to die. *Pixel art looks cool.
*Fun when bored.
*very annoying but still fun.

i reccommend it if you like puzzle games. The puzzles are very difficult making it fun (unless you hate to loose).. This game didn't catch me but I found it funny.. 1 of the best "Hardcore puzzle platformer", But I think it is kind of short, just 30 levels. Still, you can play it coop with friends after finishing it, it worth \$1 I think.
